

New!

TexPrint® R

Mug-Size Sheets Exclusively for RICOH

TexPrint®R is a new “special purpose” dye sublimation paper that puts the blazing speed of the RICOH GX series and Sawgrass Virtuoso printers to full use. TexPrint®R does this while maintaining the premium definition and color fidelity that the TexPrint® family of sublimation papers is renowned for.

TexPrint®R delivers:

- Excellent dimensional stability at high speeds and heavy ink loads
- Exceptional resistance to smudging and offsetting
- Directional out-gassing (dye-gasses aimed at the receptor with no back gassing)
- Very high color transfer efficiency

TexPrint®R is available through authorized distributors worldwide.

TexPrint®R is 100% compatible with Sublijet-R sublimation inks!

This leading edge technology works with all RICOH and Virtuoso printer models.

Available in:

- 3.5” x 9.125”
- 4” x 9.5”

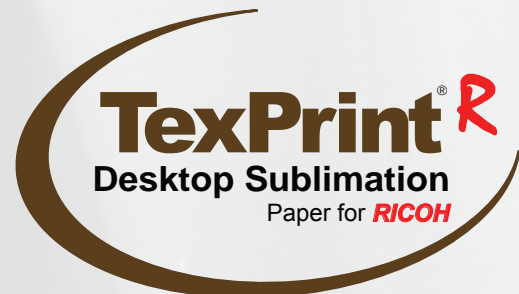

110 pack sheet sizes

500 pack sheet sizes
